

IRREVERSIBLE TEMPERATURE INDICATING LABELS

WHAT ARE TEMPERATURE INDICATING LABELS?

LogTag® temperature indicators offer a straightforward, cost-effective solution for temperature monitoring using advanced color change technology. These irreversible indicators provide a clear permanent record, showing that an item or product has reached or exceeded its designated temperature. Our temperature indicators are durable and non-toxic, with an adhesive backing, designed for any application where precise temperature monitoring is crucial.

- ✓ Low Cost - High Volume
- ✓ Immediate Visual Indication
- ✓ Traceable QR Codes
- ✓ Permanent and Tamper Evident
- ✓ Versatile For Many Applications
- ✓ Easy To Apply Adhesive Labels
- ✓ Available In Roll and Sheet Form
- ✓ Self Activating
- ✓ Environmentally Safe - Non Toxic

Trigger Range:

Available From: -8°C to $+215.6^{\circ}\text{C}$

Suitable For A Wide Range Of Applications:

Logistics

Our easy-to-apply sticker indicators provide a simple solution for monitoring temperature in logistics, ensuring product quality and compliance with minimal effort.

Cold Chain

Our freezer indicators ensure that products in cold chain logistics remain at optimal temperatures, preserving quality and ensuring regulatory compliance.

Food Storage

Our non-toxic labels ensure safe and reliable temperature monitoring for food storage, maintaining product quality and compliance.

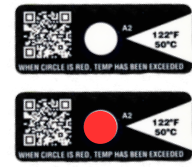

Healthcare

Our temperature indicators have a temperature trigger range between -8°C to $+215.6^{\circ}\text{C}$, covering a wide range of healthcare and pharmaceutical transportation needs, ensuring precise monitoring and compliance.

HIGH-TEMPERATURE INDICATORS provide a clear visual cue for temperature excursions through a color change, ensuring you know when your product has reached a critical temperature.

Model	HTA-1030	HTA-1040	HTA-1042	HTA-1045	HTA-1053-GSI
Temperature Trigger Range	+30°C	+40°C	+42°C	+45°C	+50°C

Temp: +25°C to +215.6°C **Accuracy:** ±1°C **Display:** Irreversible White To Red **Size:** 62.2mm (L) x 26.5mm (H)

LOW-TEMPERATURE INDICATORS offers a durable, self-activating solution to monitor exposure to cold temperatures. The indicator changes from green to red to provide a straightforward visual confirmation.

Model	FCP-10N2	FCP-1000	FCP-1002	FCP-1003
Temperature Trigger Range	-2°C	0°C	2°C	3°C

Temp: -2°C to +15°C **Accuracy:** ±2°C **Display:** Green to Red Color Change **Size:** 30mm (L) x 30mm (H)
